The Leopard Leap

Performance, comfort, style, innovation and versatility are not only tag words for the multiple award winning Leopard Catamarans line, these are at the core of the design and ethos of the yachts, their designers, builders and global team.

From the initial designs to the manufacturing process, these concepts, and the direct feedback from our owners and customers, are at the heart of developing blue water cruising capable yachts that are fun to sail, easily maintained anywhere in the world and aesthetically pleasing.

Developing and delivering the benchmark for the modern cruising catamaran, Leopard Catamarans invites you to enjoy our latest designs.

HISTORY

The making of a Leopard

In 1994, South African builder Robertson and Caine entered the catamaran market and would change the seascape of catamaran production and design forever. Modestly starting with the building of 5 Leopard 45's for the premier charter company in the world, these yachts were received with unparalleled fanfare.

The catamarans proved to be so successful that another order was placed for 5 more. In less than 4 years, Robertson and Caine delivered their 100th catamaran, and every single one was delivered to its final destination on its own bottom. What better maiden trip and better proof of blue water capability than an extensive delivery passage?

Due to market demand, the relationship expanded with the launch of Leopard Catamarans in the year 2000. Sailors were impressed with the new line of catamarans coming from the Robertson and Caine factories, and were interested in purchasing them for private use, making their own choice of layout, optional gear and delivery locations.

In 2007 Leopard Catamarans ventured into the power catamaran market with the introduction of the Leopard 47 power catamaran. The incredible fuel efficiency of this model made the Leopard 47 PC an instant success.

Soon after, the Leopard 37PC was introduced to satisfy demand for a smaller powercat, and in 2011 this model was replaced with the Leopard 39PC. Each and every power cat is also delivered on its own bottom all over the world.

In early 2012 the 1,000th Leopard catamaran was launched, further establishing Robertson and Caine's position in the catamaran market. Leopard Catamarans has made impressive steps and grown very fast over the past decade, becoming the industry's leader in the production and delivery of quality catamarans for private and charter fleets worldwide.

With a global dealership network spanning 6 continents and 20 plus countries, Leopard owners know that there is always support nearby for parts, expertise or advice.

ROBERTSON & CAINE

The Builders Behind the Boats

John Robertson and the late Jerry Caine founded Robertson and Caine LTD, South Africa's largest boat builder, in 1991. With over 20 years of boat building history, they have launched over 1,000 Leopard Catamarans and created a reputation of building quality cruising catamarans that are sought after worldwide.

Originally, the company created custom sailing yachts, ranging from 36ft fiberglass monohulls to 70ft state-of-the-art carbon fiber racing boats. The latest innovative offerings include the Leopard 39, Leopard 44, Leopard 39 Powercat, Leopard 48, Leopard 58 and the most recently launched Leopard 51 Powercat.

These models are destined for the world's most exotic sailing grounds, including the US East Coast, the Caribbean, the Seychelles, the Mediterranean, Asia and the South Pacific.

As a result of continued innovation and quality, Robertson & Caine remains a serious competitor in the international catamaran market and continues to enjoy a dominant position in the North American market.

Robertson and Caine's Leopard Catamarans are the #1 selling brand of catamaran in North America and continue to impress with modern pioneering, while staying true to the classic feel and elegance that the Leopard range has always offered.

Robertson and Caine's production facility is headquartered in Woodstock, just a short distance from the Cape Town city center and harbour. The company is currently producing and launching approximately three boats a week and there are several new exciting projects currently in the pipeline.

SAILING CATAMARANS

LEOPARD | 39

LEOPARD | 44

LEOPARD | 48

LEOPARD | 58

LEOPARD | 39

The performance driven Leopard 39 is at the heart of the Leopard line. With her generous sail plan and stepped hull design, this yacht provides excellent performance without sacrificing interior volume, amenities and offshore capability.

On deck, the space is well thought out and useable; from the large transoms to the open and easily maneuverable aft, side and forward decks, getting around this yacht is easy and safe.

The integral hardtop bimini over the cockpit provides superior protection from the elements and also offers a stable working platform from above which enables you to easily walk around

the boom and still have plenty of space for solar panels. Large vertical windows in the saloon offer panoramic views and excellent ventilation with forward facing opening hatches. The wrap around galley is accentuated by stainless-steel appliances and a Corian counter.

Down below to starboard the owner's cabin features a double berth aft and en-suite head forward with walk in shower. To port you will find two guest cabins and an additional head with shower.

PERFORMANCE | COMFORT | STYLE

Length Overall:	11.43 m / 37 ft 6 in
Waterline Length:	11.00 m / 36 ft
Mast Height:	19.10 m / 62 ft 8 in
Beam:	6.04 m / 19 ft 9 in
Draft:	1.12 m / 3 ft 8 in

Displacement:	9,105 kg / 20,120 lbs
Fuel Capacity:	350 L / 92 gal
Water Capacity:	780 L / 206 gal
Sail Area:	92 sq. m / 991 sq ft
Engines:	2 x 21 hp

LEOPARD | 44

With Leopard 44's sailing in all corners of the world and hundreds of trans ocean crossings, it is clear that this blue water cruising catamaran has lived up to the awards and praise that it has received. This yacht incorporates many of the design aspects of the Leopard 39, while featuring other successful concepts not seen before on production catamarans.

One of the many intriguing features this yacht offers is the forward cockpit with direct access from the saloon. While a forward cockpit is conventional on the modern cruising catamaran, the Leopard 44 distinctively offers an integral hardtop bimini, protecting the forward and aft cockpit,

while also creating a luxurious and comfortable variety of outdoor living areas.

While the forward cockpit received much attention, it was the sailing performance and ease of handling that earned the Leopard 44 multiple awards. All running rigging runs aft to the standard electric winch allowing this yacht to be sailed from the comfort and safety of the protected helm station with double helm seat and hardtop bimini.

Water Capacity:	780 L / 206 gal
Sail Area:	123 sq. m / 1,323 sq. ft
Engines:	2 x 29 hp

LEOPARD | 48

Leopard Catamarans is excited and proud to introduce the award-winning Leopard 48. Focused on blue water performance and comfortable living, the Leopard 48 is a welcome addition to the award winning Leopard line.

From the design table and factory floor of the catamaran industry's leading manufacturer, the Leopard 48 comes with the pedigree sailors have come to expect from Leopard Catamarans.

Her modern lines, open floor plan and casual elegance set a new standard for the modern cruising catamaran.

Drawing on the success of the Leopard 44, the Leopard 48 features a large forward cockpit with direct access from the saloon and foredeck. The raised helm station with easy access to the cockpit and side deck allows for shorthanded sailing while not separating you from your family and friends.

LEOPARD | 58

Leopard Catamarans is excited to introduce the new flagship of the Leopard line, the all new Leopard 58. Expertly crafted by world renowned Robertson and Caine, the Leopard 58 stays true to Leopard Catamarans sleek and innovative style.

This luxurious catamaran offers the option of 2 to 6 cabins, and like the award winning Leopard 44 and Leopard 48, the Leopard 58 features a unique forward cockpit. Another intriguing feature of the Leopard 58 is the expansive flybridge with seating for up to 10 people.

The flybridge, the aft deck and forward cockpit are all covered in composite teak decking, a light weight high impact simulated teak. The large open aft deck offers ample space for alfresco dining or lounging.

39

The Leopard 39 Powercat is an innovative, efficient and spacious yacht that takes the best features from the popular Leopard 47 Powercat to bring you an exciting midsize catamaran with many characteristics of a much larger yacht.

With a vision of creating an economical and intelligently designed power catamaran with global cruising capabilities,

the team of award winning designers at Robertson and Caine not only drew upon the success of previous models, but also learned from feedback of our global owners and cruisers.

LEOPARD TESTIMONIALS

“

“The Leopard catamaran we purchased has been a rewarding and fulfilling experience on all accounts. All the joys of physically owning and using the yacht have been great, but what has also been very rich and meaningful is to be part of the outstanding group of professionals at Leopard Catamarans. We are very happy with our yacht and the friends that we have at Leopard Catamarans”.

Allen & Patricia Valkie “Nauti-Nauti”

”

“

“Robust build and clever design are hallmarks of the range, and over the years each new model has featured a number of smart and sometimes downright innovative ideas and refinements... It's not easy to give a loaded cruising cat satisfying sailing performance, but the designers are known for their fast-sailing boats and the 44 is as sprightly as such cats get”.

Peter Nielsen, SAIL Magazine Best Boats 2012

”

CONNECT

Bringing the Leopard Home

Staying connected with the Leopard family has never been easier with the new Leopard Application for iPhone, iPad and Android.

These apps connect you to virtual tours, brochures, images and so much more!

You can also stay in touch with Leopard via Facebook and Google+

Keep up-to-date with all of the latest information on Leopard Catamarans!

GLOBAL SUPPORT NETWORK

Wherever you and your Leopard are in the world, you will find a Leopard support team close to you. We offer an outstanding service anywhere, anytime. Where there is water, there is Leopard.

You can also count on our Sunsail and The Moorings bases, an additional 35 support teams in the best cruising grounds worldwide.
